

Offers & Services

English-language reference for the EcoBlue HR-88C atmospheric water generator.

Option	Offer	Price	Minimum shown
Cash	Cash / check / card	\$2,595	\$0
Financed	No down payment	\$2,795	\$60
Financed	12 months, no interest	\$2,795	\$66

Financing is subject to credit approval. Payment frequency, finance charges, eligibility and all final terms must be confirmed in writing.

Value Included With the HR-88C

- Water from air: Produce water from atmospheric humidity without a direct connection to the municipal water system.
- Stated output: Up to 10 gallons per day with up to 4 gallons of internal storage, depending on operating conditions.
- Treatment components: Fan, condenser, stainless-steel storage tank, two activated-carbon filters, reverse-osmosis membrane, alkaline/mineral filter, three ultraviolet lamps and a digital status panel.
- Point-of-use convenience: Reduce the need to purchase, transport and store bottled water.
- Sustainability: Reduce dependence on single-use plastic bottles and water delivery.

Warranty Reference

Service warranty 1 year	Parts warranty 2 years	Compressor warranty 5 years
----------------------------	---------------------------	--------------------------------

Warranty coverage, exclusions, labor, shipping and service availability must be confirmed for the customer's location before purchase.

Maintenance & Replacement Reference

Filter life depends on operating conditions, sanitation, usage and manufacturer instructions.

Replacement item	Reference interval	Reference price
Pre-carbon filter	12-18 months	\$20
Post-carbon filter	12-18 months	\$20
Alkaline/mineral filter	12-18 months	\$20
